InvestWorks

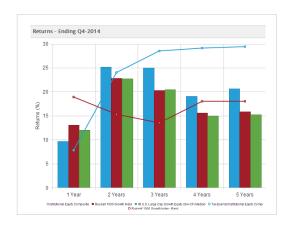

InvestWorks® simplifies investment research and analysis with instant access to a powerhouse of decision support information on institutional and retail investments.

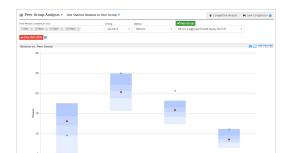

Brisk Analysis

A vigorous analytical engine is at the heart of InvestWorks. Isolate investment products. Analyze their performance. Compare them with market benchmarks and with each other. Evaluate them against carefully -crafted peer groups. Track their stylistic integrity. Deconstruct them to expose their composition, asset-class sensitivities, and style drift.

InvestWorks gives you the complete lowdown on investments with exhaustive data, and robust analytics.

Swift Comparisons

InvestWorks enables robust product comparisons. Get fresh, and sometimes surprising, insights from a fully-stocked arsenal of comparative tools. Clearly grasp important differences among investment options with customized searches, charts, and reports. Critically evaluate numerous risk factors and discover hidden gems.

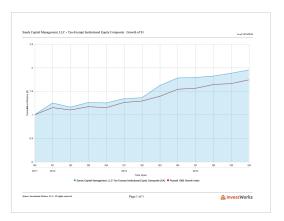

InvestWorks provides the tools you need to arrive at the bottom line with unrivaled clarity, accuracy, and precision.

Elegant Presentations

InvestWorks features a wide array of intelligently structured charts and tables. Print, copy, or export any of them at the click of a button. Customize any chart with a dynamic charting engine that's built right in to the profile of every investment. Want to change the comparison from a peer group median to a benchmark? Just click a button and it's done.

InvestWorks delivers high-impact presentation tools that help you communicate complex information at a glance.

Experience the power of InvestWorks. Request a Demonstration.
